

ABHINAV DEWANGAN

AI Engineer & Software Developer | abhinav.dewangan.dev@gmail.com | India

TECHNICAL SKILLS

AI / ML: Python, Machine Learning, Computer Vision, Generative AI

Backend: FastAPI, Python, REST APIs, Microservices Architecture

Frontend & Tools: React, JavaScript, TypeScript, SQL, AWS, Git, GitHub, n8n

PROBLEM SOLVING & ACHIEVEMENTS

Solved 300+ coding problems across LeetCode & CodeChef with optimal time & space complexity.

FEATURED PROJECTS

Real-Time Vehicle Speed & Traffic Violation Tracking System

End-to-end computer vision and surveillance system detecting vehicles, computing calibrated speeds via homography, and logging violation alerts asynchronously with FastAPI and SQL.

EDUCATION

Bachelor of Technology in Computer Science & Engineering

Focus: Artificial Intelligence, Data Structures & Algorithms, Operating Systems, Database Systems
